

Other Information

General information

- Please bring PE kits on Monday and take them home at the weekend for washing.
- Classroom doors open at 8.35 in the morning
- No jewellery should be worn for PE. Please try to avoid jewellery for schools but watches are helpful for learning about time.
- Please remember to label all uniform to prevent it from getting lost.
- Any money that your child may need at school should be brought in a labelled wallet or purse.

Further Information

We hope this guide has given you more of an insight in to your child's next academic year at Wombwell Park Street Primary School.

If you have any further questions then please don't hesitate to ask the staff at our school, who will do their best to answer your questions.

Transition

Team ??

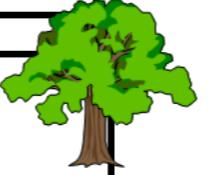

What is transition?

Transition is the process by which children enter our school, move from year group to year group and finally leave us and move on to secondary school.

Why is transition important?

Whether children are starting school for the first time or moving classes within the same school, parents and children may have concerns and worries. Those worries are often about the unknown and effective transition will ensure you have ample opportunity to ask questions and prepare for the changes ahead. When transition is done well, children will retain their self-confidence, self-esteem and continue to make good progress. Parents will also feel well informed and able to support their child's development at home.

How do we manage transition?

On July Thursday 6th 2023, the children will take part in a transition day. During this day, there will be a focus on developing the beginnings of relationships with staff and pupils that will be in the class next year. As part of this each child will:

- Be introduced to this years transition theme 'Making a Difference' through the story 'The Planet in a Pickle Jar.'
- Find out about their Team and the learning that will take place next year.
- Take part in activities that support staff in understanding each pupil in their class.

About Mrs Bamforth

Hello, this is my third year at Park Street and I am going to be the Year 5 class teacher. I am really excited at being with the Year 5 children this year and I know that we have lots of wonderful and exciting learning planned as well as educational visits to participate in. I am also the Geography lead for Park Street, and we have lots of fun new adventures planned for the coming year.

I am really looking forward to working with a fabulous group of children this year and I hope to continue to promote their enthusiasm for learning, helping and guiding them into reaching their full potential.

I enjoy teaching all subject areas across the curriculum, but being the Geography lead I am hoping that the children of Park Street continue on their journey to become 'Geographers' this year and enjoy the adventures and experiences of learning all about Geography along the way.

Outside of school, I spend a lot of time watching my three children play cricket, especially during the Summer months. As a family, we all enjoy spending time together catching up or watching our television programmes as a family. I am also an avid reader and can often be found with my head in a book!

About our Curriculum

Our exciting curriculum is divided in to three terms:

Autumn Term: How does Whitby compare to Wombwell - (Geography Focus)

Spring Term: Ancient Greeks—Innovations and Legacies and World War I (History Focus)

Summer Term: Habitats - around the world (Science Focus)

In the Autumn Term we will be comparing our local area to the coastal town of Whitby.

During the Spring Term, we will investigate the innovations and legacies, including the science and maths legacies that we still use today, of the Ancient Greeks, as well as discover and understand about World War I.

In the Summer Term, we will be learning about the various habitats around the world, looking at the tropical rainforests, Mojave Desert and the Arctic
