

HORSESHOE

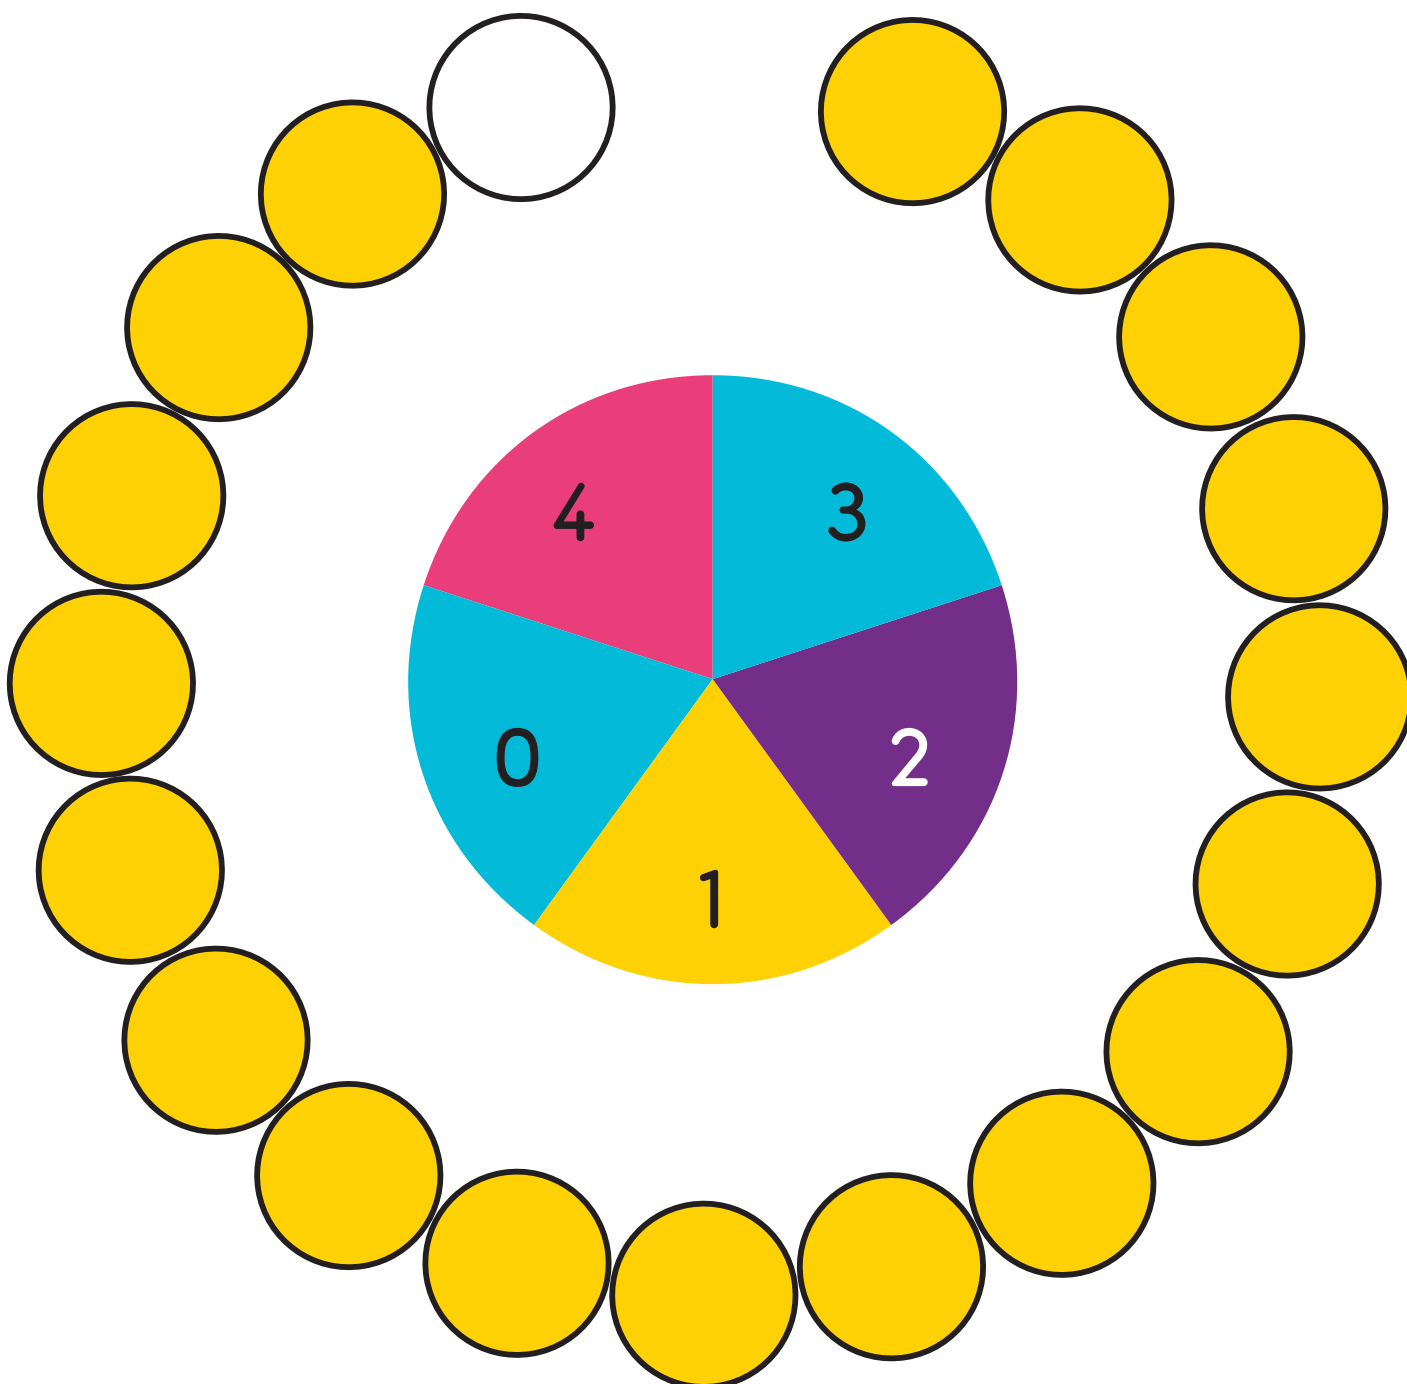

For 2 players. You need: a spinner, 12 counters and two pens.

How to play

- Choose any 2-digit number you wish, and write it in the white circle
- Place a counter on this circle - both player will both move the same counter
- Spin the spinner for the number of moves you can take
- Spin a 0 and miss a turn!
- As you move, say the numbers counting on in steps of 10
- If there is a blank space where you land, write the missing number in the circle
- You win a counter for every number you write correctly
- Keep taking turns
- You can choose to move in either direction

The winner is the first person to win 6 counters

PLACE VALUE
I CAN COUNT ON AND BACK IN STEPS OF 10 FROM ANY NUMBER
