

# Multiplication League Game

## Instructions

1. Put a counter on the circle below
2. Decide which goal the players will score in
3. Players take it in turns to roll the dice, and the first to call the correct answer (see 'levels of challenge' for what the question will be) can move their counter one line closer to their chosen goal
4. Once a goal is scored, play resumes in the centre position
5. The first to five goals is the winner!

## Levels of Challenge

**Level One:** Choose a number between 1 and 10, and multiply the number on your dice by that number

**Level Two:** Roll two 1-6 dice and find the product of those two numbers

**Level Three:** Roll two 1-10 or 1-12 dice and find the product of those two numbers
