

Side to Side Game 1

Nadeen says,
“There are 999
three-digit numbers”.
Is she correct?
Explain your answer.

Explain the difference
in the values of 7 in
these numbers...

476 728 127

Noah picked a number
between 100 and 140.
The tens digit was a 3 and
the digits added to a total
of 8.
What was his number?

How many ways
can you partition the
number 12? Can you find
a pattern in the number
of different ways you can
partition numbers to 20?

Ashley says
“If I know how to write
the numbers 0-9, I can
write all the numbers in
the whole world.”
Is he right?
