

## ACTIVITY 4: Solve the Square

### N.C. Objectives:

To read numerals to 100 (I to C) and know that, over time, the numeral system changed to include the concept of 0 and place value

**Resources Required:** copies of the hundred square (below) and multiplication grid (see following page)

**Players:** 1+

It is really useful to get children to complete a Roman Numeral hundred square to help them develop their knowledge of, and identify patterns in, the Roman Numeral system.

- Discuss with the children the patterns they can identify in each row and each column - how does this help develop their understanding?
- If the children are confident, challenge them to complete the Multiplication Grid

I	II	III	IV	V	VI	VII	VIII	IX	X
									XX
									XXX
									XL
									L
									LX
									LXX
									LXXX
									XC
									C
