Please note the school's stance regarding photographs in school below (extract from the school's Safeguarding Policy).

PHOTOGRAPHING CHILDREN

- 9.1 We understand that parents like to take photos of or video record their children in the school play, or at sports day, or school presentations. This is a normal part of family life, and we will not discourage parents from celebrating their child's successes.
- 9.2 However, if there are Health and Safety issues associated with this - i.e. the use of a flash when taking photos could distract or dazzle the child, and cause them to have an accident, we will encourage parents to use film or settings on their camera that do not require flash.
- 9.3 When a child does not have permission to have photographs taken in school, parents and carers are informed prior to an event. No photograph will be taken during any activity or class/school performance and set procedures are followed. Parents are discouraged to take photographs of their child at an event and upload it on to Social Media, if it has other children on it also.
- 9.4 We will not allow images of pupils to be used on school websites, publicity, or press releases, without express permission from the parent, and if we do obtain such permission, we will not identify individual children by full name.
- 9.5 The school cannot however be held accountable for photographs or video footage taken by parents or members of the public at school functions, it can only advise appropriate measures (please see 9.3).
