

ACTIVITY 9: ROLLING ROMANS

N.C. Objectives:

To read Roman Numerals to 1,000 (M) and recognise years written in Roman Numerals

Resources Required: 2 sets of Roman Numeral cards (see following page)

Players: 2+ players/teams

1. Each player has a set of Roman Numeral cards
2. They must shuffle these cards and place their set face down in a pile in front of them
3. For each round, players must flip over their top 3 cards and rearrange these to make the highest number, as possible, in Roman Numerals
For example, if a player turned over V, I and X the highest number they could create is XVI (16)
4. The player that has created the largest number on each round gets a point
5. The winner is the first player to ten points!
