

ACTIVITY 7: Roman Dominoes

N.C. Objectives:

To read Roman Numerals to 1,000 (M) and recognise years written in Roman Numerals

Resources Required: set of Roman Numeral domino cards
(see this page and following page)

Players: 2+

This resource can be used for 2 different activities

- 1. Loop Cards:** Distribute the cards around the group/class. The person with the 'Start' card starts and reads the first question aloud. The person with the answer calls this out and then asks their question. This continues until the person with the last card shouts 'STOP'.

How quickly can the group/class work through their cards?

- 2. Roman Dominoes:** In pairs, how quickly can children match the question to the correct answer? Once the children have completed the dominoes, challenge them to make their own set of Roman Dominoes.

START	What is 1 more than V?	VI	What Roman Numeral represents 50?
D	How do you write the number that follows VII?	IX	How do you write 14 in Roman Numerals?
XIV	What number below 100 is the longest to write in Roman Numerals?	88	How do you write the number that precedes the Roman Numeral L?
XLIX	Name 4 numbers below 100 that are represented by a single Roman Numeral	1 (I) 5 (V) 10 (X) 50 (L)	What Roman Numeral represents 1?
I	How do you represent 70 subtract 5 in Roman numerals?	LXV	How do you write the number 100 less than 500 in Roman Numerals?
